SUMMARY

Information Technology professional with hands-on experience in technical support, hardware and software troubleshooting, Windows and Linux administration, MikroTik networking, LAN infrastructure, system backups, and technical operations. Experienced in maintaining reliable IT services, resolving incidents under strict operational deadlines, and supporting users and operational teams. Additional experience in PHP-based application development, database management, and industrial maintenance environments.

TECHNICAL SKILLS

- **IT Support & Hardware:** desktop and laptop troubleshooting, hardware maintenance, printer repair, component replacement, software installation, and user support
- **Networking:** MikroTik configuration, LAN installation and cabling, bandwidth monitoring, network troubleshooting, and redundant connectivity
- **Operating Systems & System Administration:** Windows Desktop/Server and Linux administration, including Fedora, Ubuntu, and Red Hat Enterprise Linux
- **Software Development & Databases:** PHP, Laravel, CodeIgniter, Ruby on Rails, JavaScript, MySQL, and PostgreSQL
- **Industrial Maintenance:** preventive and corrective maintenance, electrical troubleshooting, industrial machinery, water pumps, and HVAC systems

WORK EXPERIENCE

Broadcast Streaming Engineer

May 2022 – present

DRVC Multimedia Creative · PT. Muda Mudi Kaya Kreatif · Jakarta

- Prepared, installed, configured, and maintained multimedia broadcast equipment and networks for high-profile live and hybrid events
- Maintained reliable operation during live and hybrid events
- Led technical event teams and managed onsite end-to-end multimedia delivery (audio, video, and streaming systems)
- Managed inventory of technical devices and tools, and performed routine WordPress web maintenance (SEO optimization)

Owner / Lead Technician

Oct 2020 – Mar 2022

Hijrah Komputer Gelumbang · IT Shop & IT Services · Palembang

- Diagnosed, repaired, and serviced laptop, PC, and printer hardware, including mechanical parts and mainboard/component replacements
- Assembled and modified custom high-performance PCs and cryptocurrency mining rigs
- Developed tailored full-stack web applications based on client technical requirements

WORK EXPERIENCE (CONTINUED)

IT Helpdesk Associate

Nov 2018 – May 2020

PT. Gautama Indah Perkasa · FMCG Distributor · Sunter, Jakarta

- Built redundant network backup paths using MikroTik to maintain uninterrupted corporate internet access
- Developed internal PHP/CodeIgniter web applications for IT Helpdesk tracking and Stock Inventory management
- Executed daily automated system and database backups to ensure data integrity
- Managed corporate email server hosting migrations to handle high-volume data traffic

IT & T Networking Team

Oct 2018

Asian Para Games 2018 · via WSL MSC Sdn Bhd (Malaysia) · Jakarta

- Deployed, routed, and configured network equipment and cabling infrastructure across international event venues
- Monitored network speeds and established alternative backup paths to mitigate critical connection errors

Maintenance

May 2011 – May 2012

PT. Trisinar Indopratama · Technoplast Factory · Tangerang

- Conducted preventive and corrective maintenance on plastic injection molding machines and factory electrical systems
- Maintained industrial facility cooling towers, water pump systems, and commercial HVAC (fans and air conditioners)
- Supported corporate infrastructure by managing and repairing office computers and local network routing

Cyber Cafe Administrator / IT Support

2010 – 2011

Yahoo Internet Café · Surakarta

- Managed and maintained a LAN of 30+ client PCs and central servers to ensure stable connectivity
- Performed hardware troubleshooting, peripheral repairs, software installations, and routine OS updates
- Administered diskless server systems and optimized network bandwidth for gaming and browsing environments
